THOSE who intend to EMIGRATE to AMERICA, before engaging Passage by any other Line, should inquire for themselves as to Rates, &c. by the "ALLAN" ROYAL MAIL STEAMERS. These splendid Steamers have acquired a reputation second to none for comfort, speed, and safety, and in them most special care is devoted to the comfort of Intermediate and Steerage Passengers. Stewardesses attend on the Female Passengers. Steamers of the Line sail EVERY WEDNESDAY from GLASGOW to BOSTON, U.S., carrying Goods and Passengers to all parts of United States, New Brunswick, and Nova Scotia, AT LOWEST RATES. Boston, although within Six Hours' Journey by Rail of New York, is 200 Miles nearer than New York to this country; and Passengers from GLASGOW TO NEW YORK, Philadelphia, and Baltimore are forwarded from Boston FREE OF CHARGE, and are given a supply of provisions for the journey. They are also forwarded to all parts of America at least as cheaply and as quickly as *via* New York. The Railway Cars run alongside the "Allan" Steamers, and Passengers going by Boston avoid the risk of imposition and expense that may arise at more crowded ports. A reference to the map of the United States—a copy of which may be had from the undersigned—will show that Boston is unquestionably the best landing place for the great and wealthy New England States of Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, and Connecticut; and owing to its Splendid Railway System is equally favourably situated with New York towards the States of New York, Pennsylvania, Ohio, Kentucky, Indiana, Illinois, Missouri, Kansas, Iowa, Nebraska, Wisconsin, Minnesota, Dakota, Wyoming, Utah, &c. Passengers to all those States are forwarded at least as cheaply and as quickly from Boston as from New York. Steamers of the Line also sail Weekly from GLASGOW to QUEBEC and MONTREAL, Carrying Goods and Passengers to all parts of Canada and the Western States of America. The Quebec Route is the Cheapest and Best for all parts of Canada, especially to the CANADIAN PROVINCE OF MANITOBA, and the North-West Territory, consisting of Two Thousand Million Acres of Land, a large portion of which is offered in Free Grants to Settlers. Government Pamphlets and Tenant Farmers' Delegates' (all of whom travelled by the "Allan Line") reports on this Province and all parts of Canada free. The Passage to Quebec being 480 Miles less than to New York, and very pleasant to Passengers, owing to a large portion of it being in the comparatively smooth waters of the Gulf of St Lawrence, makes this Route a most desirable one for Passengers to the Western States of America as well as to Canada. To all these the Rates are less than *via* New York. ASSISTED PASSAGES to Farmers, Mechanics, Labourers, and Domestic Servants. Steamers also Despatched Twice a Week from Liverpool. "Allan" Line Passengers get Reduced Fares to Glasgow and Liverpool from Leading Scotch Railway Stations. Special Steamers despatched for Live Stock.

# DUNDEE DIRECTORY.

1882-83.

---

## GENERAL NOTICE.

Two years have elapsed since the DUNDEE DIRECTORY was last issued to the public. At that time the publishers put forth every endeavour to make it as complete in all its details as possible; and they have been gratified to know that the DIRECTORY, as a business guide to the town and district, has met with acceptance by all classes of the community. On the present occasion they have not relaxed their efforts, nor spared any pains to maintain the reputation of the DIRECTORY. The reference letters—"A a," &c.—on the Plan, refer to the List of Streets, Squares, Lanes, &c., page 7. By consulting this List, any street may be instantly referred to on the Plan. Strangers visiting the town will find this List of great advantage.

The general trade of the town two years ago was in a vacillating condition. Commercial men of long experience anticipated a partial revival of the prosperity of former times, as the signs at that time were healthier and a firmer tone pervaded the markets. But, notwithstanding these prognostications, money now seems scarce, manufacturers complain that they receive small remuneration for their produce, and a depressive influence is felt over all branches of trade. This stagnation has been ascribed to various causes; but probably over-competition is the main reason, as on the Continent of Europe and in India the manufacture of jute, for which Dundee has been famous, is largely developing. Another element which has contributed to the dulness is the partial collapse of the building trade, which embraces many branches of industry. Two years ago, many buildings were being finished in different parts of the town. Since then very few have been erected. As a consequence, artizans of all classes have been compelled to emigrate to various parts of the world—America and South Africa being the chief—in search of remunerative employment. The external aspect of the town remains almost the same, and the labours of the Improvement Committee have, on the whole, been light. The blocks of buildings in the Murraygate have long ago received the finishing touch, and the northern section of new Commercial Street has

been, with the exception of one lot, finished, in a style of architecture conforming to the general design of the thoroughfare. In the Seagate, however, several stances are still unoccupied, and in the present dull and sluggish times may remain so for some time. Gellatly Street—the northern outlet of which a few years ago terminated in a chaos of faded, antiquated buildings, the remnants of bygone days—is now opened into a fine thoroughfare, which leads into Dock Street, and is contiguous to the Arbroath Station and the newer sections of the Docks and Harbour.

The Sailors' Home, an elaborately-finished building, designed for the accommodation of seamen visiting this port, was opened on 16th December 1881 by the Earl of Dalhousie. This institution is already bearing good fruit, as it is being largely taken advantage of by mariners hailing from a distance.

The chief improvement connected with the town presently going on is the opening up of a new street connecting the Nethergate with South Union Street and the Caledonian and Tay Bridge Railway Stations. For this purpose, the piles of old buildings which formed part of Fish Street and extended to the Nethergate are being cleared away. This new street, which is to be built in a style conforming to the other tenements recently erected in the centre of the town, will run in a slanting direction from nearly opposite Thorter Row, terminating near the Stations referred to.

Another pleasing feature in connection with the progress of the town is the construction of a new Tay Bridge, a special Act of Parliament having been obtained for that purpose. The new Bridge will differ in many material points from the one which has become historic from the appalling catastrophe with which its name is associated. After a large amount of litigation, the maximum height has been fixed at 77 feet, the authorities at the same time arranging for plans which will ensure the stability and safety of the structure. Operations have already commenced, and in a few years a new and substantial Bridge will again span the waters of the Tay.

Although, from a commercial point of view, the general trade has been languishing, there have been other influences at work which will place Dundee in a position of social and intellectual eminence it has never before enjoyed. Other towns, of much less importance, perhaps, have long had the advantages of educational and philanthropic institutions of the highest order, and it has been the regret of many that Dundee should stand second in that respect. Through the munificence of some of the fine old families connected with the burgh, who cherish everything relating to its traditions and welfare, this state of things is about to pass away, and Dundee will ere long be raised to the rank of a University town. Early in 1881 negotiations were entered into between the Directors

of the High School and the Dundee School Board, the latter claiming that the High School should come under the supervision of the Education Act, while the Directors at the same time desired to keep it separate from the management of the Board. An action was about to be raised in the Court of Session, when ex-Bailie HARRIS stepped forward with the splendid gift of £30,000 to relieve them in their difficulty, £10,000 of which was to be handed over to the School Board for the erection of a school for secondary education, and £20,000 to be devoted to the use of the High School, with the object of improving it and founding a rectorship, the conditions being that the School Board would forego all claims to the School. This being agreed upon, arrangements are now being made to carry out the wish of the donor; and a site for a school for secondary education is likely to be obtained in Court House Square, to be designated the "Harris Institute."

The gift of Mr HARRIS, munificent as it is, has been far surpassed by that of Mr J. BOYD BAXTER and Miss BAXTER, whose names must in all time be held in honour and esteem by the people of Dundee for their princely liberality. Desirous of obtaining the highest education for the youth of the town, and foreseeing the advantages of the establishment of a University in our midst, they placed at the disposal of the community the large sum of £130,000 for the endowment of a College. A splendid site has been obtained in Nethergate, embracing the whole of the fine old villas between Park Place and Small's Wynd, as well as St John's Free Church, the whole of which are to be utilised for collegiate purposes. The "Baxter College"—for such it has been appropriately named—will be opened in a few months, and will thereby give an impetus to the higher branches of education, and confer incalculable benefits in all time coming on the rising youth of the community.

Institutions intended for the amelioration of the poor and destitute have also been established. A Home for Apprentices, who have been trained in the Industrial Schools, has been instituted in West Bell Street; and, through the benevolence of the late Mrs CURR, a Night Refuge for outcasts and wanderers has recently been opened in the same locality. These institutions, under careful management, will doubtless effect a great amount of good.

New Bills for the better regulation of public affairs are passing through Parliament. The Gas, Water, and Police Commissioners, who wish to fund their debts, expect to realize a large reduction in the rates of interest, and thereby assist the taxpayers in the reduction of the impositions which fall heavily upon them. A newly-framed Police Bill, which is about to become law, will put into the hands of the authorities increased facilities in the working of our Police

system, to enforce sanitation, and to concentrate their powers in the suppression of crime. The Electric Light, for illuminating purposes, is likely, in a short time, if not to supersede the use of gas, at least to become a strong competitor. The Gas Commissioners, in opposition to a powerful Company, are determined to have the right of supplying electric force, either in the shape of light or power—an innovation which the public are looking upon with interest. As the Lintrathen route, by which the water supply is conveyed to Dundee, has proved to a certain extent unsatisfactory, judging from the frequent bursting of the piping in the valley of Strathmore, and as the expenses connected therewith has amounted to a considerable sum, powers have been asked from Parliament to empower the Commissioners to lay new and stronger piping in the localities where the bursts have occurred.

The Royal Infirmary has also been lately improved, and is being carefully governed and managed. The only public institution which has collapsed recently is the Working Men's Club. Its membership for some years had been falling off, and its affairs being in a languishing state, it was ultimately closed on the last night of 1881, and the building afterwards sold. After the dissolution of the Club, the trustees agreed that the best method of using the money still left in their hands would be to devote it to the inauguration and support of a series of popular Lectures; and, as a graceful tribute to Mr GEORGE ARMITSTEAD, the founder of the Club, it was arranged that they should be continued year after year under the management of the Armitstead Trust. These literary treats, several of which have already been given, and have met with success, are to be devoted to audiences intended to be composed of working people, and it is expected that the most brilliant orators and lecturers of our time will take part in them. Altogether, the social aspect of Dundee, notwithstanding the bleak prospects of trade, has never been brighter, and the coming years bid fair to make "Bonnie Dundee" still more worthy of the honoured name she bears.

As a Shipping port, Dundee has lost none of its former importance. The shipping frequenting and hailing from the port, if not more numerous than formerly, is of greater tonnage—the aggregate tonnage of the port, including the vessels building, being at present 107,266.

According to the census returns, the population of Dundee in 1871 was 120,724; in 1881 it was 142,454, shewing an increase during these ten years of 21,730; and at the present date it is estimated at 145,433.

### RATES OF POSTAGE—INLAND LETTERS.\*

The rates of postage, when prepaid, are as follows, viz.—

|                                   |   |        |   |      |
|-----------------------------------|---|--------|---|------|
| For a letter not above 1 oz.      | - | -      | - | 1d.  |
| „ above 1 oz. but not above 2 oz. | - | -      | - | 1½d. |
| „ „ 2 oz.                         | „ | 4 oz.  | - | 2d.  |
| „ „ 4 oz.                         | „ | 6 oz.  | - | 2½d. |
| „ „ 6 oz.                         | „ | 8 oz.  | - | 3d.  |
| „ „ 8 oz.                         | „ | 10 oz. | - | 3½d. |
| „ „ 10 oz.                        | „ | 12 oz. | - | 4d.  |

A letter above the weight of 12 oz. is liable to a postage of a 1d. for every ounce, beginning with the first ounce. Thus a letter weighing between 14 and 15 oz. must be prepaid 1s. 3d.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency.

No letter may be above 18 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from one of the Government Offices.

### INLAND NEWSPAPERS.

Under the “Post Office Act, 1870,” any publication fulfilling the conditions hereafter named can, upon payment of an annual fee of 5s., be registered at the General Post Office to pass within the United Kingdom as a Newspaper for a postage of one halfpenny. Without such registration a Newspaper cannot be sent through the post at less than the book rate of postage.

The conditions are as follows:—

1st. The publication must consist wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, with or without advertisements.

2nd. It must be printed and published in the United Kingdom; must be published in numbers at intervals of not more than seven days.

3rd. The full title and date of publication must be printed at the top of the first page, and the whole or part of the title and the date of publication at the top of every subsequent page; and this regulation applies to “Tables of Contents,” and “Indices.”

4th. A supplement must consist wholly or in great part of matter like that of a newspaper, or of advertisements, printed on a sheet or sheets, or on a piece or pieces of paper, unstitched; or wholly or in part of engravings, prints, or lithographs illustrative of articles in the newspaper. The supplement must in every case be published with the newspaper, and must have the title and date of publication of the newspaper printed at

\* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

the top of every page ; or, if it consists of engravings, prints, or lithographs, at the top of every sheet or side.

Registration for inland circulation includes registration for transmission broad.

For each inland newspaper, whether posted singly or in a packet, the postage, when prepaid, is one halfpenny ; but a packet containing two or more registered newspapers is not chargeable with a higher rate of postage than would be chargeable on a book packet of the same weight, viz., one halfpenny or every 2 oz. or part of that weight.

A newspaper posted unpaid, or a packet of newspapers posted either unpaid or insufficiently paid, is treated as an unpaid or insufficiently paid book packet of the same weight.

The postage must be prepaid either by an adhesive stamp or by the use of a tamped wrapper.

No newspaper can be sent through the post the second time for the original postage. For each transmission a fresh postage is required.

Every newspaper must be posted either without a cover, or in a cover entirely open at both ends, so as to admit of easy removal for examination. A newspaper must not be fastened in its cover by means of gum, sealing wax, postage stamp, or otherwise. If this rule be infringed, the newspaper is treated as a letter.

Every newspaper must be so folded as to admit of the title being readily seen.

A newspaper or packet of newspapers which contains any enclosure (except supplements) is charged as a letter, unless the enclosure be such as might be sent at the book rate of postage, and the entire packet be sufficiently prepaid as a book packet, in which case it is allowed to pass.

A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, is charged as an unpaid or insufficiently paid letter.

No packet of newspapers may be above 14 lbs. in weight, two feet in length, one foot in width, or one in depth.

#### INLAND BOOK POST.

The postage is one halfpenny for every 2 oz. or part of that weight.

A packet posted wholly unpaid is charged with double the book postage ; and if posted partially prepaid, with double the deficiency.

A book-packet may contain any number of separate books or other publications, photographs (when not on glass or in cases containing glass or any like substance), drawings, prints, or maps, and any quantity of paper, or any other substance in ordinary use for writing or printing upon ; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof is allowed, whether such binding, &c., be loose or attached ; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, pens or pencils in the case of pocket-books, &c., and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto ; but the binding, rollers, &c. must not be sent as a separate packet.

But a book-packet may not contain any letter, or communication of the nature of a letter\* (whether separate or otherwise), unless it be a circular-letter ; nor any enclosure sealed or in any way closed against inspection ; nor any other enclosure not allowed by the preceding paragraph. If this rule be infringed, the entire packet is charged as a letter.

\* Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

A book-packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp or otherwise), or in a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination, otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string; Postmasters being authorized to cut the string in such cases, although if they do so they must again tie up the packet.

No book-packet may be above 5 lbs. in weight, nor above one foot six inches in length, nine inches in width, or six inches in depth, unless it be sent to from one of the Government offices.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were delayed without distinction, book-packets may be kept back till the next despatch or delivery.

*Circulars*—i.e., letters which, from internal evidence, appear to be intended for transmission in identical terms to several persons, and the whole or the greater part of which is produced by means of ordinary type, engraving, lithography, or any other mechanical process—may also be sent by book post.

Large numbers of letters, not being circular letters, are from time to time found in halfpenny wrappers, contrary to the express provisions of the book post; and, as the officers of the department are instructed to surcharge such letters with additional postage, it will save not only trouble to the Post Office, but annoyance to the public, if care be taken always to pay letter postage for letters other than circular letters, unless they be written or printed on Post Cards.

#### INLAND POST CARDS.

Official Post Cards impressed, or private Post Cards embossed, with a halfpenny stamp (adhesive stamps not being accepted in payment of the postage) may be transmitted between places in the United Kingdom with letters printed or written upon the back.

The front (or stamped) side is for the address only, in addition to the printed words "Post Card" and "The address only to be written on this side." There must be nothing else written, printed, or otherwise impressed on it, nor must there be any writing or printing across the stamp. On the reverse side no communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any one of these rules be infringed, the card will be charged 1d. on delivery.

No card other than one of those issued by the Government, or a private card embossed with a halfpenny stamp at the Office of the Inland Revenue, will pass under a halfpenny stamp, if it bear on it a communication of the nature of a letter (unless it be a circular letter as defined above).

Post Cards are sold at 7d. per dozen; superior quality, 8d.

#### REGISTRATION.

The fee for registering a letter, newspaper, book-packet, or other article, is 2d.

No article addressed to initials or to a fictitious name can be registered. The prohibition, however, does not extend to articles addressed to the care of a person or firm.

Every article presented for registration must be enclosed in a strong envelope, securely fastened. If the article contains money, it must, in order to gain the benefit of the guarantee described in the last paragraph under this heading, be enclosed in a Registered Letter Envelope sold by the Post Office.

and if coins are sent, they must on no account be put in loose, but must be packed and enclosed in such a way as to move about as little as possible.

Every article to be registered must be given to an agent of the Post Office, and a receipt obtained for it; and it should on no account be dropped into a letter-box. If, contrary to this rule, an article marked "Registered" be dropped into a letter-box, it will, *if directed to any place in the United Kingdom*, be liable to a registration fee of 8d., instead of the ordinary fee of 2d.

The registration of articles makes their transmission much more secure, inasmuch as they can be traced through their whole course. Thus the loss of a registered article is a rare occurrence. Nevertheless large sums of money or other articles of great value should not be sent through the post, even if registered; as the machinery of the Department is not arranged with a view to such transmissions.

Inland letters or packets which contain coin, watches, or jewellery, if posted without registration, are nevertheless treated as registered, and charged on delivery with a registration fee of eightpence in addition to the ordinary postage; and any such letters or packets which cannot be registered in time to be forwarded by the Mail for which they are posted, are detained for the next despatch.

By law the Postmaster General is not responsible for the safe delivery of registered articles; but henceforth he will be prepared to make good the contents of a registered article lost while passing through the Post *to the extent of* £2, in certain cases, provided that the sender duly observed all the conditions of registration required; that the article was securely enclosed in a reasonably strong cover; and, if it contained money, that it was enclosed in one of the Registered Letter Envelopes sold by the Post Office for the purpose; that application was made to the Secretary of the Post Office immediately the loss was discovered; and that the Postmaster General, whose decision shall be final, was satisfied that the loss occurred while the article was in the custody of the British Post Office, and was not caused by any fault on the part of the sender.

## FOREIGN AND COLONIAL LETTERS.

The rates of postage on letters for Foreign Countries and the Colonies will be found in the Table of Foreign and Colonial Postage at page 89.

A letter posted unpaid, or insufficiently paid, to any country where payment is compulsory, is sent to the Returned Letter Office to go back to the writer.

Letters posted unpaid, or insufficiently paid, for Australia, New Zealand, Cape Colony, or Natal, are charged 6d. each in addition to the deficient postage.

Unpaid letters addressed to countries in the Postal Union are charged double the prepaid rate, and those partially prepaid are charged with double the deficiency.

No letter for a colony or foreign country may exceed 2 feet in length or 1 foot in width or depth.

No letters containing gold or silver money, jewels, or precious articles, or anything liable to customs duties, can be sent, *even if registered*, to any country of the Postal Union.

## FOREIGN AND COLONIAL NEWSPAPERS.

The rates of postage to Foreign countries and the Colonies on newspapers registered for transmission abroad will be found in the Table of Foreign and Colonial Postage, page 89. Each newspaper is liable to a separate rate of postage, whether sent singly or in a packet, and if above 4 oz. in weight, it is liable to two rates of postage; and so on.

All publications registered for transmission abroad *must be posted within eight days from the date of publication*, including that day; and any newspaper

posted more than eight days after the date of publication, as well as any registered publication, must be prepaid at the book rates of postage.

The collected numbers issued during the month of a weekly or fortnightly publication are not allowed to pass as a monthly publication.

### BOOK POST.

Articles which may be sent to places abroad under the Book Post Regulations consist of two classes, as follows:—

- (a) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of extracts from Deeds under private seal (and whether written or printed on stamped or unstamped paper), Way Bills, Bills of Lading, Invoices and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, and other papers of a similar description.
- (b) "Printed Papers," including periodical works, books (stitched or bound), pamphlets, sheets of music (printed), visiting cards, address cards, proof of printing (with or without the manuscript relating thereto), engraving photographs (when not on glass or in frames containing glass), drawing plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, or lithographed, and in general all impressions or copies obtained upon paper, parchment, or card-board by means of printing, lithographing, or any other mechanical process easy to recognise, except the copying press, and anything usually attached or appurtenant to any of the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission by post which shall be contained in the same packet; also printed, engraved, or lithographed circulars, notwithstanding that such circulars may be letters or communications in the nature of a letter.

The two classes are subject to the same rates of postage, except that when addressed to countries in the Postal Union the initial rate for Commercial Papers is higher than that for printed papers. If there be any mixture of the two in the same packet the whole packet is treated as Commercial Papers.

The rates of postage for Commercial Papers are the same as for printed Papers, except that the lowest charge for each packet is 2½d., even if the packet weigh less than 2 oz.

The rates of postage, which must be prepaid, on packets to places abroad are given, under the heading of Books, in the Table of Foreign and Colonial Postage, page 89.

### PATTERNS AND SAMPLES.

There is a Pattern and Sample Post to Foreign Countries and the Colonies generally; but it is restricted to *bonâ fide trade patterns or samples of merchandise*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

No article liable to Custom Duties can be sent as a sample or pattern.

The rates for Patterns are the same as for Books, except that the lowest charge is 1d. for a packet addressed to any of the countries to which the postage is ½d. per 2 oz. for Books.

## FOREIGN AND COLONIAL POST CARDS.

Post Cards for abroad may be sent to all the countries comprised in the Postal Union.

Post Cards for abroad with impressed stamps of 1d. and 1½d. each are sold at those rates, and are transmissible to the majority of the countries of the Union without extra charge.

The regulations relating to Inland Post Cards apply also to Cards posted for places abroad, except that the latter, when these regulations are infringed, are not sent on at all.

## MISCELLANEOUS REGULATIONS AND SUGGESTIONS.

The Post Office is not, by law, responsible for any loss or inconvenience which may arise from the non-delivery, mis-sending, or mis-delivery of any letter, book, or other postal packet (even if the packet be registered), nor is the Post Office responsible for any injury which a packet may sustain during its transmission.

To guard against such injury all postal packets which are likely to suffer from stamping or from great pressure should be placed in strong covers; and even with this precaution no fragile article should be sent through the Post. It should be remembered that every packet has to be handled several times; that it is exposed to considerable pressure and friction in the mail bag; and that whenever the bag has in the course of its transmission to be transferred by means of the railway apparatus, the risk of injury is much increased.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

Neither money nor any other article of considerable value ought ever to be sent through the Post, except by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes. Every letter which contains money, postage stamps, or other valuable article, even when registered, ought to be enclosed in one of the special registered letter envelopes supplied by the Post Office in order to obtain the benefit of the guarantee described at page 79.

To facilitate the delivery of letters, a Letter-box should be affixed to every house-door.

## MONEY ORDERS.

When applying for Money Orders, the public should use the prepared printed "Application Forms," which are supplied gratuitously at all Money Order offices, viz.—

1. Application for Inland Orders;
2. Application for Foreign and Colonial Orders.

The commission on Inland Money Orders is:—

|                        |   |    |                              |     |
|------------------------|---|----|------------------------------|-----|
| For sums under 10s.,   | - | 2d | For sums of £6 and under £7, | 8d  |
| " of 10s and under £2, |   | 3d | " £7 " " £8,                 | 9d  |
| " £2 " " £3,           |   | 4d | " £8 " " £9,                 | 10d |
| " £3 " " £4,           |   | 5d | " £9 " " £10,                | 11d |
| " £4 " " £5,           |   | 6d | " £10 - - -                  | 1s  |
| " £5 " " £6,           |   | 7d |                              |     |

No order is allowed to contain a fractional part of a penny.

No Money Order can be issued, unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter

and the payee, together with the remitter's address. In the case of Foreign Orders the full address of the payee must be given; and if the Order be payable to a native in British India, the Tribe or Caste, and the Father's name must also be furnished.

*Exceptions.*—1st. The remitter is at liberty to desire, at the time of issue that the Order be crossed like a cheque thus, & Co., and be made payable only through a Bank, in which case it is left to his option to give or withhold the name of the payee. The designation of the bank need not be furnished. Foreign and Colonial Money Orders do not come under this exception.

2nd. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient.

3rd. The usual designation of a firm is sufficient, except in the case of company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," but even a designation of this nature may be accepted provided the Order at the time of issue be crossed for presentation through a Bank.

The holder of a Money Order is always at liberty to direct, by crossing it that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus presented the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders are issued in the United Kingdom on the following Foreign countries, British possessions, Agencies, and Colonies, at the rates of commission shown below:—

The following are the amounts for which Postal Orders are issued, together with the Poundage payable in respect of each Order:—

The person to whom a Postal Order is issued must, before parting with it fill in the name of the person to whom the amount is to be paid, and may fill in the name of the Money Order Office at which the amount is to be paid. The person so named must, before payment can be made, sign the receipt a

the foot of the Order, and must also fill in the name of the Money Order office, if that has not been already done.

Every person to whom a postal order is issued should keep a record of the number, date, and name of office of issue to facilitate enquiry if the order should be lost.

If a Postal Order be crossed “\_\_\_\_\_ & Co.” payment will only be made through a Banker, and if the name of a Banker is added, payment will only be made through that Banker.

A Postal Order presented by, or through, a Banker for payment will not in the absence of an express arrangement between such Banker and the Postmaster General to the contrary) be paid until after such Order has been examined at the Chief Office in London.

These Orders are not payable out of the United Kingdom, except at Malta and Gibraltar.

#### POST OFFICE SAVINGS BANK.

The Post Office Savings Bank is open for bank business during the same hours as for Money Orders.

Deposits of one shilling, or of any number of shillings, or of pounds and shillings, may be made by any person at the Post Office Savings Banks, provided that such depositor shall not make deposits amounting to more than £30 in any one year ending 31st December, or make any further deposit when the total amount standing to his credit has reached £150 exclusive of interest.

#### GOVERNMENT INSURANCES AND ANNUITIES.

The Postmaster-General is empowered, under the Act 27 and 28 Victoria, cap. 43, to ensure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of ten years and upwards.

The persons whose lives are insured, or to whom Annuities are granted by the Postmaster General, have direct Government security for the payment of the money, at the proper time.

Forms of proposals for the Insurance of Lives and the Purchase of Annuities, and all necessary information on these subjects, may be obtained at the Post Office.

#### POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 1s. for the first 20 words, and 3d. for every additional five words or part of five words. The names and addresses of the sender and receiver are not counted. The public are required to affix the stamps to the message forms just as they are required to affix stamps to letters.

When the terminal office, *i.e.*, the office situated nearest to the address, is a Head Post Office, the amount paid for transmission covers the cost of delivery within one mile or within the town postal delivery of that office when the delivery extends for more than a mile. But when it is not a Head Post Office, the message is delivered free within the limit of one mile only.

When the addressee resides beyond the free delivery, portorage is charged at the rate of 6d. per mile or part of a mile, provided the whole distance does not exceed three miles; but the charge is calculated from the boundary of the district within which no portorage is levied. For instance, if the addressee's residence is a mile and a quarter from the terminal office, and also beyond the

town postal delivery, the charge for portorage would be 6d. ; if the distance above two miles and under three, 1s.

If the addressee resides at a greater distance than three miles from the terminal office, portorage is charged, for delivery by mounted messenger, at the rate of 1s. per mile (except in Ireland, where the charge usually is only 8d. per mile), the distance being reckoned from the office door.

### FOREIGN TELEGRAMS.\*

(Regulations founded upon the International Telegraph Convention.)

1. Foreign telegrams are divided into three classes,—ordinary, code, and cypher. Ordinary telegrams are those composed of a series of words, or of words, figures, and letters conveying an intelligible meaning.

2. Code telegrams are those composed of words, the context of which has no intelligible meaning. Proper names are not allowed in the text of code telegrams, except in their natural sense.

In European code telegrams any of the languages in use in Europe, or Latin may be employed; but no telegram may contain words of more than one language.

In extra-European code telegrams, only English, French, German, Italian, Spanish, Portugese, Dutch, and Latin, may be employed; but words of any or all of these languages will be allowed in one and the same telegram.

3. Cypher telegrams are those containing series or groups of figures or letters having a secret meaning; or words not to be found in a standard dictionary of the language. The portion in cypher must be composed exclusively of figures or exclusively of letters.

Cypher telegrams written in letters are not accepted for extra-European places.

4. The address of the receiver must be paid for, and must not consist of less than two words, a name and a town. Example: Hercules, Bombay.

5. The address of the sender is charged for, if transmitted; if not to be transmitted, it must be written at the foot of the form.

6. In European telegrams the maximum length allowed for a single word is 15 letters; in extra-European telegrams 10 letters; any additional letters being counted and charged for as extra words at the rate of 15 or 10 letters respectively to the word.

7. Subject to the limit imposed by rule 6, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe or other sign of punctuation, they are counted as so many separate words.

Words incorrectly spelled, so as to reduce the number of letters below the maximum, or words incorrectly joined together, contrary to the usage of the language, cannot be accepted as single words.

8. Every separate letter or figure is charged for as one word, and in European telegrams every group of five figures or letters is counted as one word, larger groups being counted at the rate of five figures or letters to a word, plus one word for any excess. In extra-European telegrams groups of figures or letters are counted at the rate of three to a word, plus one word for any excess. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

# High-Class Pianofortes.

---

METHVEN, SIMPSON, & CO., solicit an inspection of their Stock of PIANOFORTES, by the leading English and Foreign makers, their aim being to present to their patrons such a variety of Instruments as will enable them to make a more satisfactory choice than can be done in a Maker's establishment, where one kind of Pianos only can be seen at a time, or in a Dealer's whose operations are limited to a few makers.

The whole of the Pianofortes in stock have been carefully selected—many of them specially manufactured for M., S., & Co.—who can assure intending purchasers that finer Instruments of their respective classes are not to be found in the trade, while their prices are at least as moderate as those of any House which supplies really good Instruments.

Of lending PIANOFORTES, HARMONIUMS, and ORGANS at special rates of hire for a term of three years, at the end of which period (provided the hire has been regularly paid) the Instrument becomes the property of the hirer without any further payment whatever, is found to be a very advantageous arrangement for those having fixed limited incomes, as it enables them to acquire a first-class Instrument without a large immediate outlay of money.

A, Inlet valve. B, Outlet valve. C, Regulating valve. D, Plug, through which  
to refill cup. E, Waste valve to draw off the water.

THE OIL, forced from the Reservoir, passes down through a tube inside the reservoir, to the bottom of the gauge-glass, and is there discharged into the water with which the glass is filled, and can be seen as it passes to the cylinder, rising drop by drop through the water. The quantity of Oil being used is thus seen at a glance, and the feed regulated. **HOW WORKED.**—Fill the glass tube indicator with clean water, also a little in the cup; fill the cup full of oil, and screw down the plug D, open valve A and B, then regulating valve. Engineers and others who follow these directions can have little or no trouble in the working of the Lubricator. *Illustrated Sheets and Price Lists on application.*

THE EQUITABLE LIFE ASSURANCE

SOCIETY OF THE UNITED STATES.

ESTABLISHED IN 1859.

ASSETS, 31st December 1881, exceeds £9,200,000 STERLING,

The Surplus exceeds £2,000,000.

New Business in 1881 exceeds £9,600,000.

The whole of the Profits are reserved for the Assured.

The greater earning power of money in the United States enables the EQUITABLE to offer to assurers UNEQUALLED ADVANTAGES.

A Popular Scheme of Life Assurance, on

THE TONTINE PLAN,

Has originated with, and is granted by, the EQUITABLE, which, upon a principle of deferred bonus adds very considerably to the proportionate profit of those holding these Policies.

Estimated Results at the end of 20 years, on a £1,000 Policy.

Age.	Annual Premium.	Total Amount Paid.	Cash Value.	Paid-up Policy	Annuity and £1000 at Death
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
25	19 17 6	397 10 0	600 0 0	1600 0 0	19 4 2
30	22 14 2	454 3 4	712 0 0	1650 0 0	26 8 0
35	26 7 6	527 10 0	868 0 0	1770 0 0	38 12 5
40	31 5 10	625 16 8	1069 0 0	1920 0 0	57 14 0
45	37 19 2	759 3 4	1353 0 0	2160 0 0	94 4 7

Thus, one aged 30, after 20 payments of £22, 14s 2d, may chose any of these three ways, viz., Cash, £712 and give up his Policy; a Paid-up Policy for £1,650 with no more to pay; or an annuity of £26, 8s increasing yearly, and the £1,000 at death to his heirs. FOR CHILDREN from Ten years upwards, this is a splendid way of assuring their lives. One aged 10 ceases to pay when he or she is 30, and secures an annuity which, increasing as it does yearly, becomes a most valuable one. and the sum assured at death to his or her heirs.

THE EQUITABLE LIFE ASSURANCE SOCIETY of New York has received an unqualified indorsement from leading Actuaries in London, expressing opinions of the soundness of the Institution, of its good management, and of its full title to confidence, in an **IMPORTANT DOCUMENT**, which ought to be read by every person desiring a Life Insurance.

Prospectuses, forms of Proposals, and English Actuaries' opinions, to be obtained on application at the Dundee Branch Office, 13 WARD ROAD, or any of the Society's Agents; or from

WM. HOWAT, Manager for Scotland,

1st May 1882.

156 BUCHANAN STREET, GLASGOW.

SCOTTISH EQUITABLE

(MUTUAL) LIFE ASSURANCE SOCIETY.

ESTABLISHED 1831.

Head Office—26 St Andrew Square, EDINBURGH.

PRESIDENT—His GRACE THE DUKE OF BUCCLEUCH AND QUEENSBERRY, K.G.

Manager—THOMAS BOND SPRAGUE, M.A. Secretary—WM. FINLAY.

THE SCOTTISH EQUITABLE is a *purely Mutual Office*. There are no Shareholders to absorb any portion of the Profits, which are therefore wholly divided among the holders of Participating Policies. Its leading features are *Unquestionable Security, Liberal Conditions of Insurance, and Early Participation in Profits*.

No Member of the Society incurs any personal responsibility for claims under the Society's Policies.

Most of the Policies, after five years' endurance, are freed from all conditions except the payment of the ordinary premium.

POSITION OF THE SOCIETY ON 1st MARCH 1881.

Existing Assurances, including Bonus additions, - - £8,443,660

Income, 1880-81, - £324,939. Accumulated Funds, - £2,489,481

NON-FORFEITABLE POLICIES are now granted by the Society on a new and improved plan, which combines the advantages of *Moderate Premiums* payable for a limited number of years (11, 22, or 33), *Ultimate Participation in the Profits, Fixed Surrender Values*, and the issue of *Fully Paid-up Policies* without special application to the Directors.

The Premiums on Whole-Life Policies are now calculated by half-years of age, so that those who insure within six months after a birthday will be charged a lower rate of premium than hitherto.

LOANS are granted in connection with Life Assurance, on Life Interests, Reversions, and other approved Security. The Directors are also prepared to entertain proposals for the sale of Reversions to the Society.

LIFE DEPARTMENT.

THE Quinquennial Valuation to December 31, 1879, was made on the basis of the Institute of Actuaries' (Hm) Table of Mortality and 3 per cent interest. The valuation was strictly a net premium one, the whole of the loading being reserved.

The Valuation Balance Sheet showed a surplus of £143,194, 6s 6d in the Life Assurance Fund, and of this sum it was decided to divide £140,000, leaving £3,194, 6s 6d of undivided profit to be carried forward to the new Quinquennium. According to the regulations of the Company the sum to be divided was Appropriated as follows :—

Four-fifths to the Policyholders, ...	£112,000
One-fifth to the Proprietors, ...	28,000
	£140,000

A large proportion (upwards of one-fourth) of the Company's business is non-participating, and the sum of £112,000 was therefore divisible as a bonus among 3,222 policies, assuring with existing bonuses £2,939,985, 16s 6d, the annual premiums payable under which amount to £83,261, 17s 2d. The Proprietors' one-fifth share, amounting to £28,000, was the sole benefit for the past five years which they received from the Life Business in return for the guarantee afforded by the unusually large paid-up capital of the Company.

MUTUAL ASSURANCE WITH MODERATE PREMIUMS.**SCOTTISH PROVIDENT INSTITUTION**

(Established 1837.)

IN THIS SOCIETY alone are combined the advantages of

Mutual Assurance with Moderate Premiums.

A Policy for £1,200 to £1,250 may, at most ages, be had for the premium generally charged, with profits, for £1,000; while under the equitable system of division large additions have been given—and may be expected—on the Policies of those who participate.

The **WHOLE PROFITS** go to the Policyholders, on a system at once safe, equitable, and favourable to good lives—no share being given to those by whose early death there is a *loss*.

THE FIFTH SEPTENNIAL INVESTIGATION showed a **SURPLUS** of £624,473, which, after reserving one-third (£208,158) for future division, was divided among 6,662 Policies entitled to participate. Policies of £1,000 sharing a first time were increased to sums varying from £1,180 to £1,300 or more. Other Policies were raised to £1,400, £1,500, and upwards.

Examples of Annual Premiums for £100 at Death (with Profits).

Age.	25	30	35	40	45	50
		*		†		
Payable during Life	£1 18 0	£2 1 6	£2 6 10	£2 14 9	£3 5 9	£4 1 7
Limited to 21 Payments	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

*A person of 30 may thus secure £1,000 at death by a yearly payment DURING LIFE of £20, 15s. This Premium, if paid to any other of the Scottish Mutual Offices, would secure £800 only, instead of £1,000.

†At age 40, the Premium **CEASING AT AGE 60** is, for £1,000, £33 14s 2d, being about the same as most Offices require during the whole term of life.

The **NEW ASSURANCES** in 1881 were **£1,063,109**, and the **TOTAL RECEIPTS** amounted to **£579,032**.

The **REALISED FUND** amounted at the end of 1881 to **£4,201,930**. The **FUND** has increased in the last nine years by upwards of Two Millions; and it may be noted that of a hundred offices not more than four in the Kingdom (all of much longer standing) have as large a Fund.

FIRE INSURANCE.

Every Description of Risk accepted at the LOWEST REMUNERATIVE RATES.

LIFE ASSURANCE—(PARTICIPATION BRANCH).

ADVANTAGES.—Perfect security, great economy in management, and moderate rates of premium.

The whole expenses of Management are only 7½ per cent. of the Income from Premiums and Interest.

The whole of the Profit, or Surplus, as ascertained at each Valuation, belongs to the Assured. The amount for the five years 1876–1880 was sufficient to provide a Bonus of £1, 10s. per cent. per annum on the sum assured, besides leaving £46,310 to be carried forward.

The Company has adopted a plan for the **Non-Forfeiture** of Policies on which the Assured may be unable to continue paying Premiums.

The Policy is now payable to the deceased's representatives as soon as their claim is proved, instead of after the lapse of three months, as heretofore.

The Rates of Premium are as follows, to assure £100, with Profits:—

AGE.		AGE.		AGE.	
20	£1 18 4	30	£2 8 8	40	£3 4 10
25	2 2 10	35	2 15 10	45	3 16 9

FIRE INSURANCES.

Insurances against Loss by Fire are granted on most favourable terms. The security is unsurpassed, the proportionate amount of Fire Reserve Funds as compared with the Premium Income being greatly larger than in the case of most other offices. Losses by Lightning are admitted.

Life Assurance on unusually favourable terms.

CLASS A1. Moderate Premiums, with Early Bonuses, which may be applied either to increase the sum assured or to make the Policy payable during life.

CLASSES A2 and B. Lowest Premiums, with special Bonus advantages to persons attaining old age.

NEW AND SELF-ACTING NON-FORFEITABLE SYSTEM.

Under this System the Surrender Value is applied to pay over-due premiums, thus preventing the accidental forfeiture of any valuable policy. Although this plan is new in Great Britain, a similar plan has for some years been carried on with much success in the Australian Colonies. The AUSTRALASIAN INSURANCE AND BANKING RECORD concludes an article on the Non-forfeitable System in the following terms:—

‘It is to the credit of the CALEDONIAN that it should be the first to introduce this liberal feature into practice in Great Britain. As the precursor of a new and better state of things in the Insurance world there, it deserves, as we trust it will find, its reward in a large accession of business.’

New Life Assurances in 7 years ending 31st December 1874, £856,399.

New Life Assurances in 7 years ending 31st December 1881, £1,780,330.

The Fire and Life Claims Paid exceed Two Millions Sterling.
